Dear Michigan Supreme Court:

In the October 2010 *Michigan Bar Journal* (approximately pages 70-73) there is a proposal to change the Michigan Rules of Professional Conduct. I support the Amendment proposed by the Supreme Court, which states "The responsibilities set forth above are voluntary and shall not be enforced through disciplinary process or any other means." This is a free society and lawyers should have the freedom to choose who receives no fee or reduced fee for their services. Thank you kindly. Please select Alternative A.

Sincerely,

A handwritten signature in cursive script that reads "Jay Drick".
